## FARMING FOR A BUSINESS

From the American Review of Reviews: If the American farmer went out of business this year he could clean up thirty thousand million dollars. And he would have to sell his farm on credit; for there is not enough money in the whole world to pay him half his price. Talk of the money and trust! They might have reasons to be mad if they owned the farms, instead of these watered stocks. When we remember that the American farmer earns enough in 17 days to buy out Standard Oil, and enough in 50 days to wipe Carnegie and the steel trust off the industrial map, the story of the farmer seems like "the short and simple annals of the poor."

One American harvest would buy the kingdom of Belgium; king and all; two would buy Italy; three would buy Austria-Hungary; and five would take Russia from the east.

Talk of swollen fortunes! With the setting of every sun the money box of the American farmer bulges with the weight of twenty-four new millions. Only the most athletic imagination can conceive of such a torrent of wealth.

Place your finger on the pulse of your wrist, and count the heart beats—once two quick throbs, day and night, a thousand dollars clatters into the gold box of the American farmer.

"How much money would it be worth to Pericles, who saw three in his golden age, if he could know that the yearly revenue of his country is now no more than one day's pay for the men who till the soil of this infant republic!"

Or how it would amaze a resurrected Christopher Columbus if he were told that the revenues of Spain and Portugal are not nearly as much as the earnings of the American farmer's head!

Merely the crums that drop from the farmers' table (otherwise known as agricultural exports) have brought him enough foreign money since 1892 to enable him if he wished, to settle the railway problem once and for all, by buying every foot of railroad in the United States.

Such is our new farmer—a man for whom there is no name in any language. He is as far above the farmer of the story books as a 4995 touring car is above a junkie. Instead of being an ignorant hewer in a barnyard world, he gets the news by daily mail and telephone; and incidentally purchases 700 trade journals of his own. Instead of being a moneyless peasant, he pays the interest on the mortgage with the earnings of a week. Even this is less of an expense than it seems, for he borrows the money from himself, out of his own bank, and spends the bulk of the tax money around his own properties.

Farming for a business, not for a living—this is the motive of the new farmer. He is a commercialist—a man of the twentieth century. He works as hard as the old farmer did, but in a higher way. He uses the four M's—mind, money, machinery and muscle; but as little of the latter as possible.

Neither is he a Robinson Crusoe of the soil, as the old farmer was. His hermit days are over; he is a man among men. The railway, the trolley, the automobile and the pop buggy have transformed him into a suburbanite. In fact, his business has become so complex and many-sided that he touches civilization at more points and lives a larger life than if he were one of the atoms of a crowded city.

All American farmers, of course, are not of the new variety. The country, like the city, has its luddites. But after having made allowance for exceptions, it is still true that the United States is the native land of the new farmer. He is the most typical human product that

## To Form an Agricultural Society

At last a determined effort is to be made to form an agricultural society in Gleichen and there are excellent reasons for believing that the formation will start in good shape and be carried through on good business basis.

The Board of Trade is calling a public meeting for tomorrow—Friday—evening at 8 o'clock and I invite every one to attend. The C. P. R. officials have signified their willingness to aid in the matter and full information of how to proceed has been obtained from the Deputy Minister of Agriculture at Edmonton. The law requires that the membership must at least be fifty to start with and it is expected that this number will easily be obtained.

It may be well to state here that those who attend the meeting will learn some very pleasing information Friday evening that is calculated to make them take a keen interest in the society. It may also be stated that besides holding annual exhibitions arrangements will be made to have a first-class race course and hold regular race meetings.

## Live Stock Meeting Next Saturday

Under the Dominion Department of Agriculture, health of animals branch, a public meeting is to be held in Gleichen on Saturday next, July 25th, at 2 p.m., when Duncan Anderson, of the live stock department of Ottawa, and T. M. Morgan, health of animal branch of Alberta, will address the meeting. The subject of mange will be dealt with and many other subjects of interest to farmers. This is an opportunity for all those raising or interested in live stock to obtain the latest and best information on all subjects relating thereto, and it is hoped they will avail themselves of the benefits of the information this meeting will afford, which is being held for their benefit.

this country has produced, and the most important, for, in spite of its agricultural cities, the United States is still a farm-based nation.

## Ordination and Lecture on Africa

A good number attended the ordination services of L. F. Lynd, B.A., Friday afternoon, conducted by Rev. C. A. Mitchell and Mahaffey of Calgary and Rev. Davy of Langdon in the Foresters' hall. After the service the sale of work under the auspices of the Ladies' Aid of the Presbyterian church proved a good success.

In the evening Rev. Mr. Mitchell gave a very interesting lecture on Africa, where he spent several years as a missionary which was interspersed with songs by Mr. Fisher and Miss Robertson and Mr. McCoy. Mr. Mitchell at some length gave a lesson on the geography of Africa, and then told of many of the traditions and customs of the natives of that continent, dwelling more particularly upon the part where his work lay. Although he told of some notorious customs of the black people, he stated emphatically that their civilization was ahead of ours all things considered, and thought that were it not for the bringing of the gospel to them, the white men had better leave the Africans to their own ways. He deplored the fact that alcohol and other stimulants were being taken to that country in such large quantities, but was glad to say the natives were receiving the gospel very readily and many have been converted.

His talk throughout was instructive and listened to with much interest, and his audience applauded him frequently and would have remained much longer to hear him although the night was warm.

Mr. Mitchell gave many illustrations of the different languages he had learned, repeating their alphabets, the

ures and occasionally singing some of their songs.

## CARD OF THANKS

Mrs. Burne and family desire to take this opportunity of thanking their many friends for the heartfelt sympathy extended to them in the time of their recent sad bereavement.

## TOWN AND DISTRICT

It is hot.  
Where can this weather be beaten?  
The farmer is still happy and wearing that big smile.  
Victor MacKenzie arrived here Monday from Penhold.  
A. J. Renaud has been ill the past week, but is improving.  
Bert Allen returned Sunday from Stettler where he has been for some weeks.  
Mrs. McArthur arrived yesterday from Nova Scotia to visit her daughters, Mrs. Gillespie and Mrs. Ercb.  
The numerous lumber yards appear to be doing a big business just now, that is a splendid sign of the times.  
Mr. Lynd has decided to discontinue Presbyterian church and Sunday school services at the Shamrock school for the present.  
Two sisters of Ralph and Richard Notter arrived Monday to visit them, one from California and the other from Nelson, B.C.  
J. H. Walker's mother and sister, accompanied by Miss Murray, arrived last week from Winnipeg, to visit him for sometime.  
Over sixteen ditch hands arrived on Thursday last to work for McDonald & Addy, northeast of town and others have come in since.

Providential Weed Inspector Anderson has been accompanying A. Renaud, district inspector, the past week through this district, and it is stated they have done good work in helping the farmers to get rid of some of these pests. The position is not always a pleasant one for frequently the inspector must order crops destroyed much against the will of the owners. Yet it is usually to the final benefit of both the owners and their neighbors. It is to be hoped the inspectors will attend to their duties now while the country is settling up and thereby save the farmers a great deal of future hard work and trouble.

N. N. Hayes returned last week from Georgetown, Idaho, where he spent a few weeks, and states the crops in Idaho are not nearly up to the crops here. He brought in from his farm north of Gleichen a fine sheaf of fall wheat as anyone would wish to see and it is now on display in The Call office window. It measures fully five feet high and the heads average a little over three inches. Mr. Hayes has 40 acres of this wheat to cut this season and expects to harvest it in about two weeks hence. According to his neighbors his wheat field is an exceptionally fine one, very thick and even.

E. D. Stevens was in from Namaka Saturday and in conversation said that two weeks ago he measured a fine field of bromo grass and found it to stand three feet eight inches high speaking of potatoes he said that he planted the "Northwest Beauty" and obtained 50 pounds. This year this variety appears to be even better than last and he is keeping a record which he has promised The Call when he digs them. Mr. Stevens estimates that close around Namaka this year's crop is 13,945 acres.

Mike Brown, mayor of Namaka, while in town the other day was speaking of his new town and said: "I have only one hint to make for Namaka to say and it won't take long to tell it. Taking the country around Namaka we have more acres in crop within ten miles than any point between Calgary and Medicine Hat. Think it over. Oh, yes, I might also add that the C. P. R. has promised a station will be built at Namaka. Watch Namaka flourish. Good day."

Mrs. Hedemark is making good progress on the Bow river bridge and finished the second span on Monday and had the last pier ready for cement. It is estimated that the bridge will be practically completed in another month and also bridges across the two Arrowwood creeks.

A petition was signed on Monday by a number of ratepayers and presented to the school trustees asking that a poll be granted for the borrowing of the sum \$10,000 for the erection of a new school in Gleichen. The notice of when the poll is to take place has not yet been made public.

J. J. McGoedrich received word Monday night that his wife was dangerously ill at Kutawa, Sask., where she went a week ago in the hope that the change would improve her health, which has not been good since Christmas.

Elsewhere in this issue the Council gives notice that all obnoxious weeds in town must be destroyed within ten days or owners will be prosecuted by the District Weed Inspector. Now get busy.

The gophers are becoming a greater pest every year and an effort should be made to induce the government to take up the question of exterminating them.

B. D. Prettie, forester to C. P. R., spent part of Monday and Tuesday in Gleichen superintending the work on the new C.P.R. park.

In order to take advantage of the discount all village taxes should be paid before August 31st.

**W. PARK EVANS,** - - - - - Publisher and Proprietor.  
Gleichen, Alberta, July 23, 1908.

As announced elsewhere in this issue an effort is to be  
made to form an agricultural society in Gleichen and it is  
sincerely hoped that every man who has the best interest  
of the district at heart will not only become a member but  
make a special effort to make the organization a success in  
every sense of the word. An agricultural society is a most  
important institution in any farming section but it is  
particularly so in a new country like this. It stimulates  
and encourages the farmer to do better and greater things  
and if properly conducted will be an educational institu-  
tion as well. While it may be considered a farmer's society  
all classes are admitted and as this is essentially a farming  
country it becomes of interest to each and every person  
that the farmer be aided in his work of producing larger  
and better crops and better stock, etc. The Legislature  
recognizes this by granting an appropriation of \$1 for each  
member to the society up to 150 and for prizes at exhibi-  
tion exceeding \$2.00 an amount equal to sixty-six and two-  
thirds per cent, but not exceeding \$3,000, besides other  
appropriations. It is proposed that the new society secure  
land and lay out a race course, exhibition grounds and  
erect suitable buildings. All this means the expenditure  
of time and money, but the benefits to be derived there-  
from will more than compensate those who have the enter-  
prise to carry it through.

Advice is a good, if it is good and well followed, and  
here is a bit clipped from an exchange that occurs to us as  
being wholesome and applicable to life's success:  
Fight your own battles. Hoe your own row. Ask no  
favors of any one and you'll succeed a thousand times  
better than one who is always beseeching some one's influ-  
ence and patronage. No one will ever help you as you help  
yourself, for no one is as heartily interested in your affairs.  
The first step will be a long one perhaps; but carving  
your own way up the mountain you will make each step  
lead to another, and stand firm while you chop another out.  
Men who have made fortunes are not those who have had  
\$5,000 given them to start with, but boys who have started  
air with a well earned dollar or two. Men who have  
acquired fame have never been thrust into popularity by  
puffs begged or paid for, or given in friendly spirit. They  
have outstretched their own hands and touched the public  
heart. Men who win love their own wooing, and we never  
knew a man to fail as signally as one who induced his  
affectionate grandmother to speak a word for him. Whether  
you work for fame, for love, for money, or for anything  
else, work with your own hands and heart and brain. Say  
"I will", and some day you will conquer. Never let any  
man have it to say, "I have dragged you up." Too many  
friends sometimes hurt a man more than none at all.

The average man is an honest man; more the majority  
of people are honest; still more, most men recognized as  
fishonest have respect for their word, once they give it in  
a business way. Many a man who will steal, lie or cheat  
has regard for his word of promise and such have been  
known to be true to their promises at great personal loss.  
So that all men like their fellows to believe their "word is  
as good as a bond". After all it is no great credit to a  
man to be true to his word for it is his natural duty and  
yet it is the one thing that makes him a good man, gives  
him a standing with his fellows and upon which he is  
judged. A man who keeps his promises or tries his best  
to fulfill his promises can always depend on succeeding in  
life, while the man who disregards them comes to grief  
sooner or later. This may all be hackney, yet it is good a  
thing to be reminded of occasionally.

Owing to several failures in that city the Calgary  
printers have organized as the Calgary Printers' Board of  
Trade and agreed on an established scale of prices and  
basis of estimating cost, which is the same as exists in  
Winnipeg and Vancouver, in each of which cities a printers'  
board of trade has been in successful operation for some  
years. Similar bodies are also in active existence in  
Toronto, Ottawa and other cities, while in Great Britain it  
is the exception to find a town or city without a master  
printers' association or similar organization. It is now in  
order for some one to call "combine".

## CUSTOMS REGULATIONS

### Respecting the Free Admission of Animals for the Improvement of Stock

On July 1st there came into effect new  
regulations regarding the custom entry  
of animals imported into Canada for  
the improvement of stock. Heretofore  
all certificates of registration which  
were apparently genuine were accepted  
by custom officers for the purpose of  
free entry. Under the new regulations  
either a Canadian certificate of registra-  
tion or an import certificate as the case  
may be must be presented.

Canadian certificates of registration  
must be presented at the port of entry  
for the following classes and breeds:  
Cattle,—Shorthorn, Ayrshire, Here-  
ford, French Canadian, Galloway, Aber-  
deen-Angus, Red Polled, Jersey, Guern-  
sey and Holstein.

Horses,—Clydesdale, Hackney, Shire,  
Percheron, Thoroughbred, Belgian and  
French Canadian.

Ponies,—Shetland, Welsh, New For-  
est, Polo and Riding, Exmoor, Conne-  
mara and Hackney.

Swine,—Yorkshire Berkshire, Tam-  
worth, Chester-White, Poland China,  
Duroc-Jersey, Essex and Victoria.

Sheep,—Shropshire, Lincoln, Oxford  
Down, Dorset, Southdown, Hampshire  
and Leicester.

The Canadian records for above men-  
tioned breeds with the exception of that  
for Holstein cattle are conducted under  
the Canadian National System in the  
office of the Canadian National Records,  
Ottawa. The Holstein Record is located  
at St. George, Ont. In making  
application for the registration of an im-  
ported animal the foreign certificate of  
registration in addition to the usual  
application must be forwarded.

There are from time to time animals  
imported into Canada of breeds for which  
there are no Canadian Records but  
which are recorded in Books of Record  
of one of the following recognized for-  
eign Associations:—

Suffolk Horse Society (Great Britain);  
Cleveland Bay Horse Society of Great  
Britain and Ireland; Yorkshire Coach  
Horse Society of Great Britain and Ire-  
land; American Morgan Register  
Association; American Saddle Horse  
Breeder's Association; American Trot-  
ting Horse Register Association; Com-  
mission des Agriculteurs de France  
(French draft); Commission des Stud  
Book des Chevaux de Demi-Sang  
(French Coach); Landwirtschaftlichen  
Nauptverein für Ostpreußen, German  
Coach; Zuchtverband des Süddeutschen  
Zuchtgebiets, German Coach; Ver-  
band der Züchter des Oldburger Ele-  
ganten Schwere Kutschpferds, German  
Coach; Verband der Pferdezüchter in  
den Holsteinschen Marschen, Olden-  
burger.

Cattle,—Highland Cattle Society of  
Scotland; Kerry and Dexter Herd Book,  
Dublin, Ireland; Sussex Herd Book So-  
ciety, Great Britain; Polled Durham  
Breeder's Association, United States;  
National Polled Hereford Breeder's  
Association, United States.

Swine,—Large Black Pig Society,  
Great Britain.

Sheep,—Suffolk Sheep Society, Great  
Britain; Kent and Romney Marsh Sheep  
Breeder's Association, Great Britain;  
Wensleydale Longwool Sheep Breeder's  
Association, Great Britain; Black Face  
Sheep Breeder's Association, Great  
Britain.

Goats,—British Goat Society.  
Asses,—Societe Centrale d'Agriculture  
des Deux Sevres, France; Stud  
Books of Jacks and Jennets of Spain.

To secure free custom entry for an  
animal so recorded it is necessary to  
forward to the Canadian National Re-  
cords, Ottawa, the foreign certificate of  
registration. The accountant of the  
Canadian National Records will return  
to the importer the foreign certificate to  
which will be attached an import certifi-  
cate to which will be authority to the  
custom officer to admit the animal duty  
free. A nominal charge will be made  
by the National Record for this service.

If further information is desired such  
will be supplied on application to the  
Accountant National Live Stock Re-  
cords, Ottawa.

The Call job department is replete in  
every particular and turns out first-class  
work. Send along your letterheads,

## Didn't Advertise Stray Mare

The Crossfield Chronicle says:

"A case of considerable interest to  
farmers and ranchers around was decid-  
ed on Saturday in Crossfield, before  
Magistrate Davie.

It appears that an stray mare had  
been on the farm of H. Boothby who  
had been unable to find an owner for it  
and had neglected to comply with the  
law, which requires that an animal taken  
up in this way shall be advertised with-  
in thirty days. For his failure to ad-  
vertise the mare's presence on his  
place H. Boothby was fined \$15 and  
costs. The second chapter in this affair  
resulted in other parties being charged  
with going late at night and taking the  
same mare away from Mr. Boothby's  
place without authority to do so. Mr.  
MacCrimmon had succeeded in tracing  
the owner of the mare and received an  
order to hold pending the owner's  
arrival from Olds. The other parties  
found out that a reward was offered for  
its recovery and went to Mr. Boothby's  
place at night and took the mare away  
thinking that they would get the re-  
ward offered. Proceedings were taken  
against them for driving the mare with-  
out the owner's consent, but in the end  
the matter was settled by these parties  
agreeing to pay all the cost and to Mr.  
MacCrimmon receiving the reward.

This case should serve as a warning to  
others who from time to time take up  
animals and let much more than the 30  
days allowed by law to pass without ad-  
vertising its presence on their place.

STRATHMORE WON  
BASEBALL MATCH

Please Don't Mention It to Anyone

"The baseball spirit is a wonderful and impressive thing," said a New Haven barber. "New manifestations of it continually crop up. 'Tad' Jones, the great Yale catcher, flopped into that red plush chair there the other day. 'Shave, sir?' said I. 'No,' said he. 'Throat cut, Yale lost.'"

Luckily none of our boys took baseball quite so seriously as above related last Saturday evening at Strathmore, although the provocation was really heart-breaking, but the Gleichen boys know not defeat and are ready for another battle.

Of course, there are a thousand and one reasons for how it all happened and just why it will never happen again—never, never, never again.

Saturday No. 1 passenger was marked up five hours late so the baseball team and a few admirers engaged teams and drove to Strathmore to meet their engagement and incidentally their defeat, while many others took the belated train. The teams arrived in time to hear the supper bell at the King Edward Hotel, and no doubt Geo. Lloyd's excellent menu was accountable for much that happened immediately after on the ball grounds.

The Strathmore umpire was not on the field in time and it was quickly decided unanimously to take a Gleichen man, E. C. Henroth, who did his best to satisfy all and Strathmore people were not backward in complimenting him.

Strathmore went to bat first and the first man to bat was the only one allowed to score and Gleichen followed with the same condition.

In the second innings Strathmore rolled up a score of five and Gleichen a large-sized goose egg.

In the third the visitors felt better when their opponents got a goose egg and they counted one.

In the fourth, however, the home team counted three and the visitors another cipher.

The fifth innings was as bad for the visitors as they scored a lonely one against four counted for Strathmore.

Then in the sixth Strathmore took a cipher while Gleichen recovered sufficiently to add three runs.

But it was in the last that Strathmore rubbed it in hard with eight counters and put Gleichen out without a mark.

Yes, yes, the above is rather brief, but a peep at the score below will be sufficient to show that the reporter had reasons for feeling ill:

STRATHMORE:										
	1	2	3	4	5	6	7			
Moore, 1b.....	1	0	1	0	1	—	3			
McEwen, 3b.....	0	0	1	0	1	—	2

GLEICHEN:										
	1	2	3	4	5	6	7			
Schnepp, 1b.....	1	0	0	1	—	—	2			
Wentoff, 1b.....	0	0	0	0	—	—	0			
Geo. Rouche, 1b.....	0	0	0	1	—	—	1

H. Walker, ss.....	0	1	0	0	—	—	1			
Joe Rouche, catcher.....	1	0	0	0	—	—	1			
Capt. A. Walker, ptch.....	0	0	0	0	—	—	0			
Total.....	1	0	1	0	1	3	0-6			

Strathmore has the finest bunch of rooters seen in a long way, and numbers considered, Gleichen made a good second, yet all were good natured.

At the fourth innings A. Walker's arm played out and Joe Rouche twirled the balance, while George Rouche caught, yet both men never pitched so poorly.

McCoy made the best strike bringing in three men, but went out himself on third.

Bollinger as a catcher is hard to beat anywhere and McElhoes made a catch that should be made history of.

By the way what became of the Strathmore players after the game? Don't they dance or was the victory too much?

But, pshaw! Gleichen's playing was rank, awful rank, and they know it, so let us deviate.

After the ball came the dance in the King Edward Hotel dining room and that's where Gleichen shone; every one going in with all their might to enjoy themselves and they succeeded until mid-night and then there was a long wait for the train and a longer drive for

the teamsters.

Much thanks is due Mrs. Urch and the other Gleichen musicians, who so materially aided the dancing and kept things going with songs, etc.

The Gleichen players are loud in their praise of Manager Fletcher of the Strathmore nine and his good wife for the courteous manner towards them and will not soon forget their kindness.

Mr. and Mrs. G. Lloyd will ever be kindly remembered by all the Gleichen people for their efforts to entertain and make every one enjoy themselves. It would indeed be difficult to think of anything more they could have done in their fine hotel for their guests comfort during the evening, and then not satisfied they supplied a tasty free luncheon and remained up to bid a kind adieu as the train pulled out.

## Bassano News

Staples & Co. are installing a lumber yard here.

Lee & Fletcher have completed the contract for ploughing on the C.P.R. farm.

John MacLean spent Saturday in town.

Peter MacLean leaves on the 22nd for Scotland on a two months vacation.

Miss L. E. Chaplin of Salmon Arm, B. C., is visiting her sister Mrs. A. A. MacGregor.

The trail from Bassano to Queens-town is getting pretty well beaten. It won't always last if our boys get their way. Cheer up boys it's all in a lifetime.

Mr. and Mrs. C. King arrived in town to take charge of the Bassano section house.

The first mention of the reason will arrive on Tuesday from the Fitzroy ranch.

Mr. Stephenson held service here last Sunday.

Magnus MacLean's broken finger is progressing favorably.

What does it mean?

Just this! That the goods must be right and the price also.

It means also that the home merchant, who is more vitally interested in the growth and prosperity of his district than the merchant of the large town or city can possibly be, ought to receive the patronage of his neighbors.

The result is mutual satisfaction, as a retail order will convince.
